

True model profiles: 3 beds, 2 intercoolers, cases 1A-6A

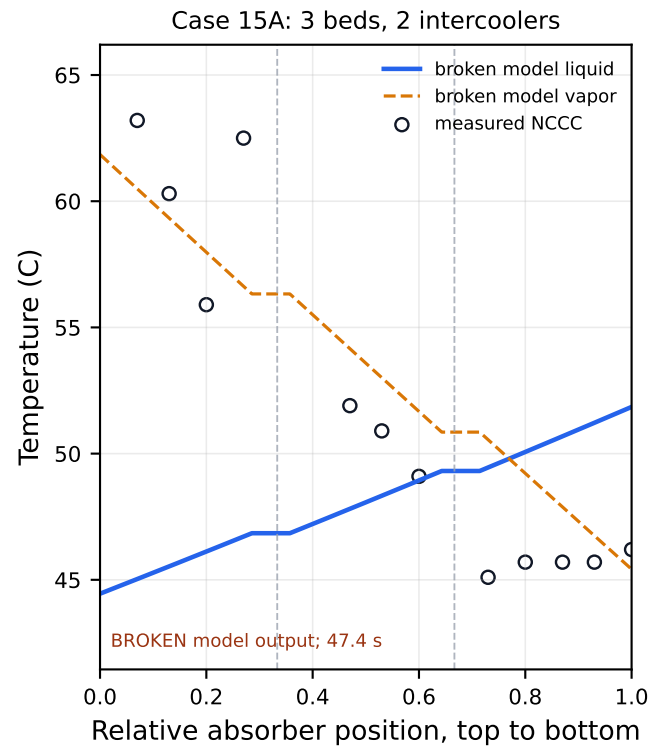

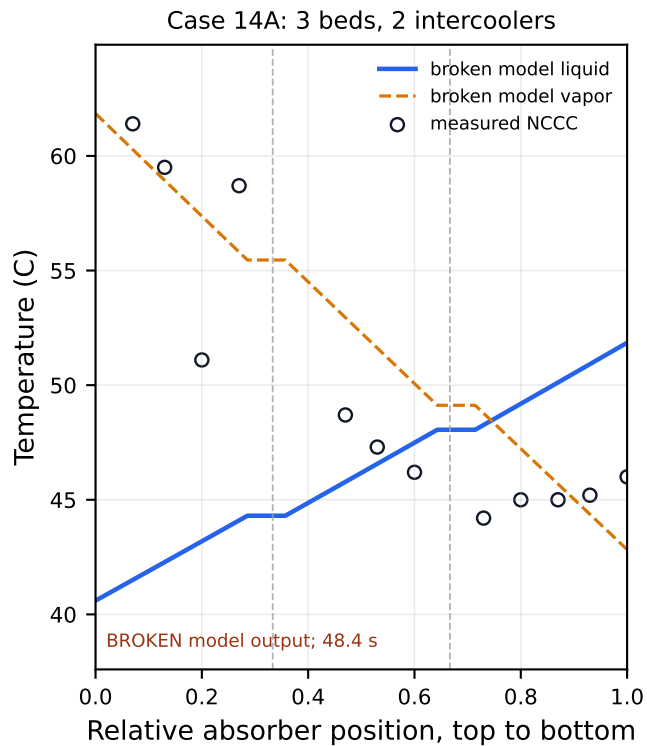

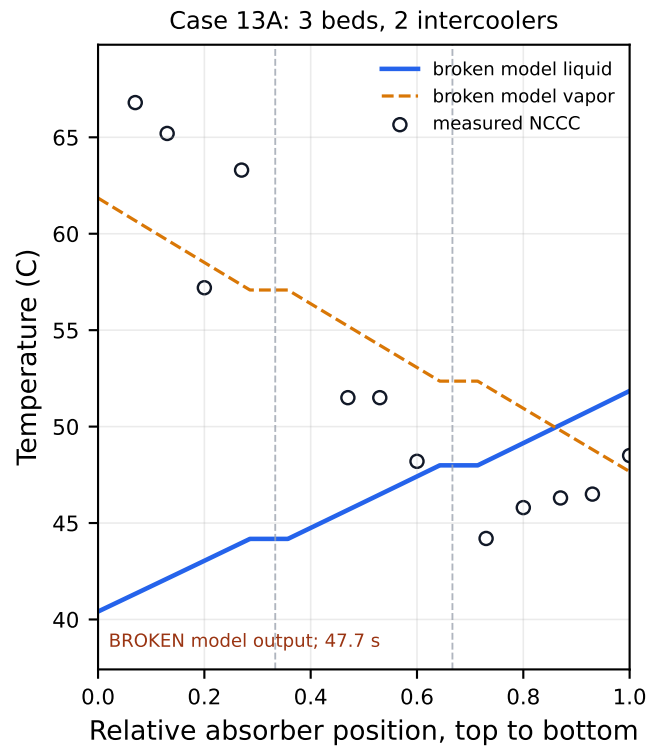

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

True model profiles: 3 beds, 2 intercoolers, cases 7A-12A

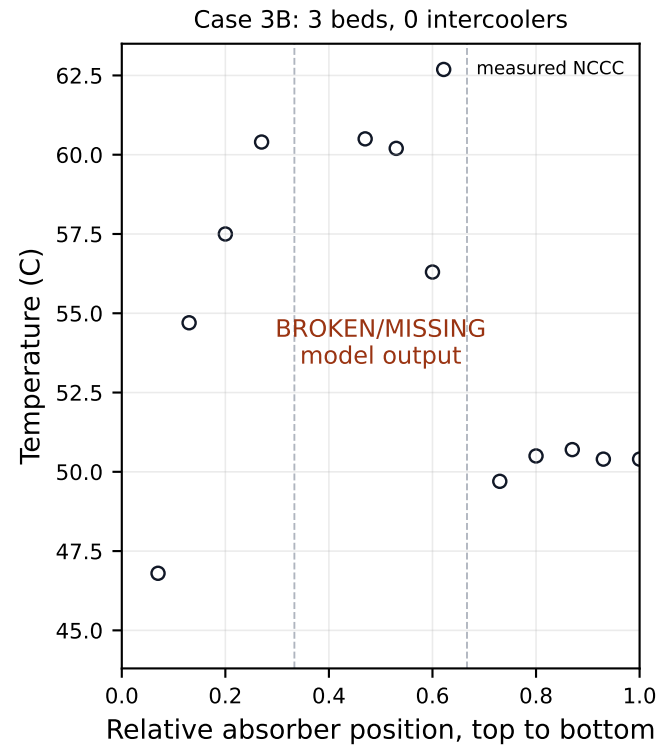

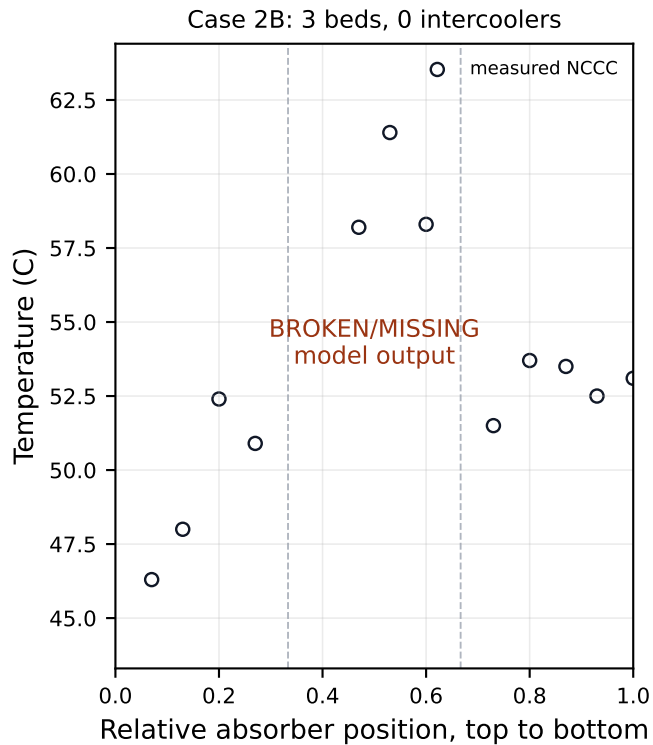

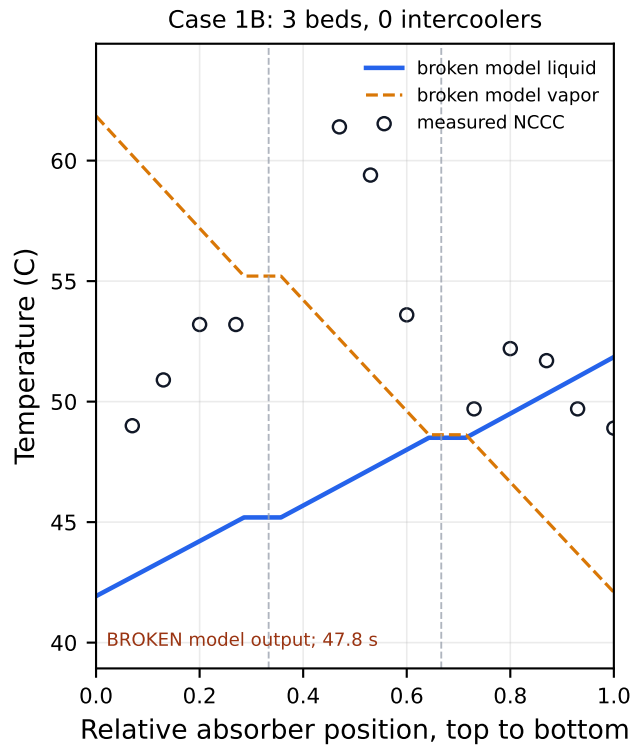

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

True model profiles: 3 beds, 2 intercoolers, cases 13A-15A

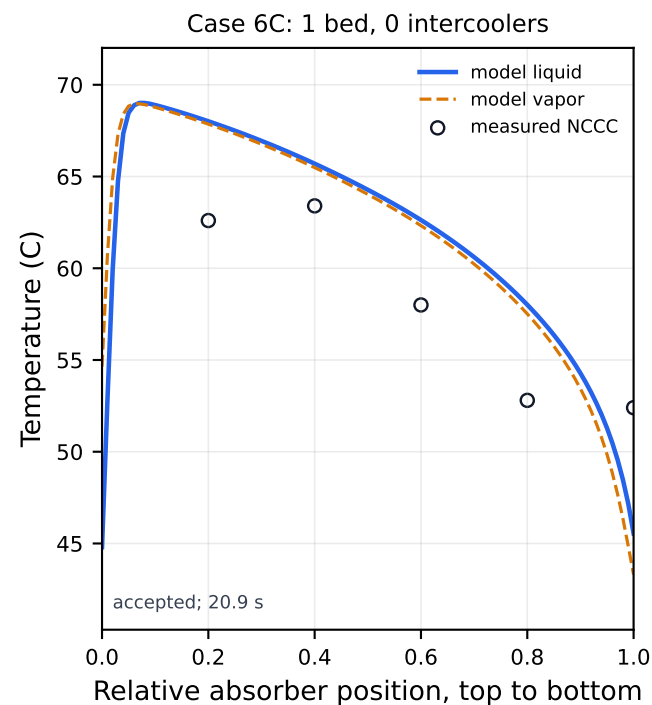

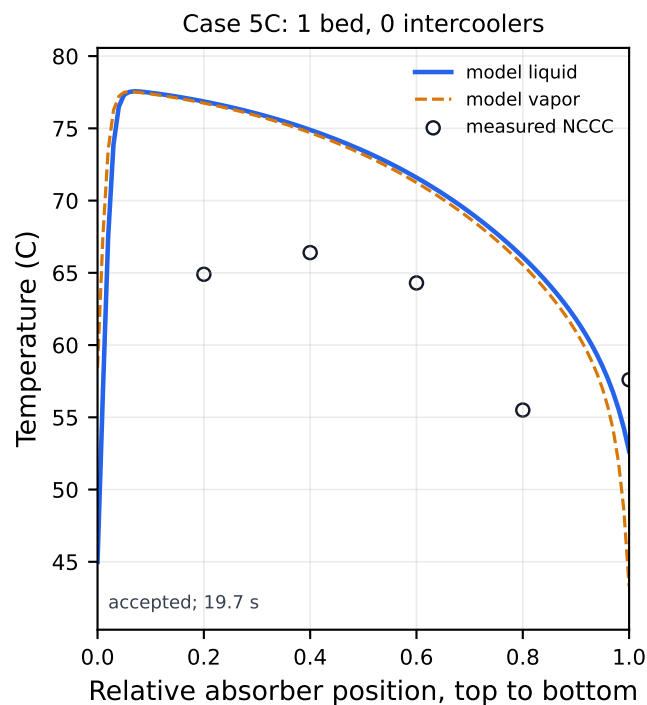

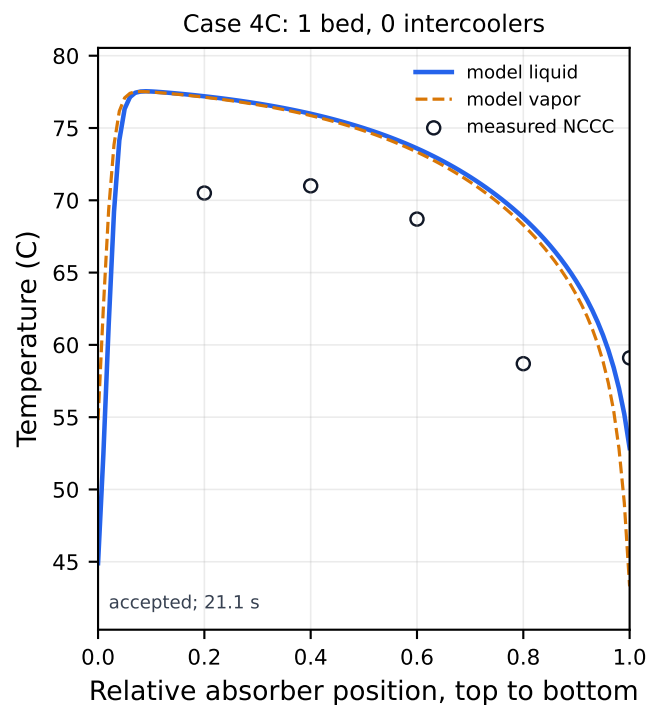

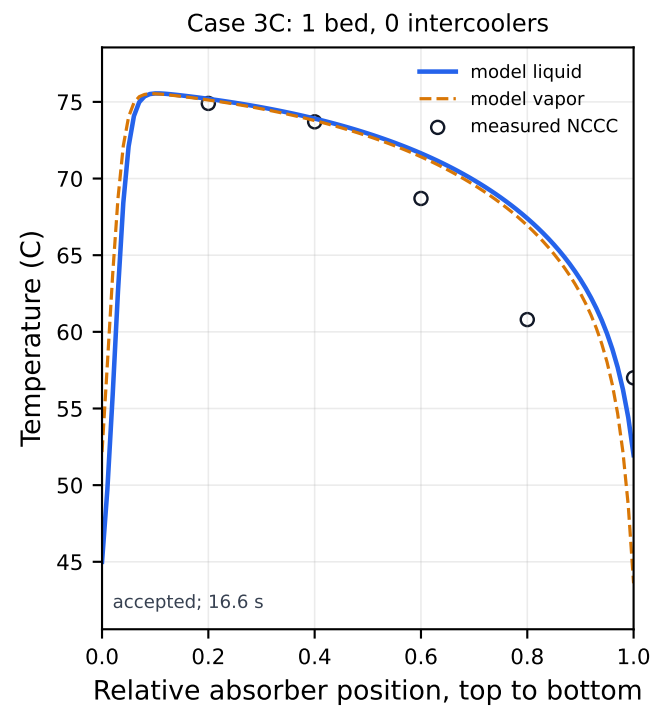

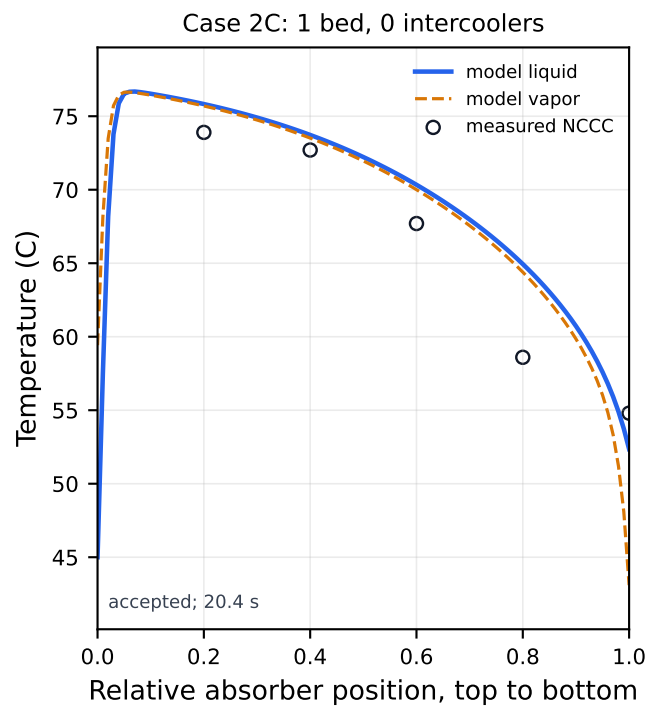

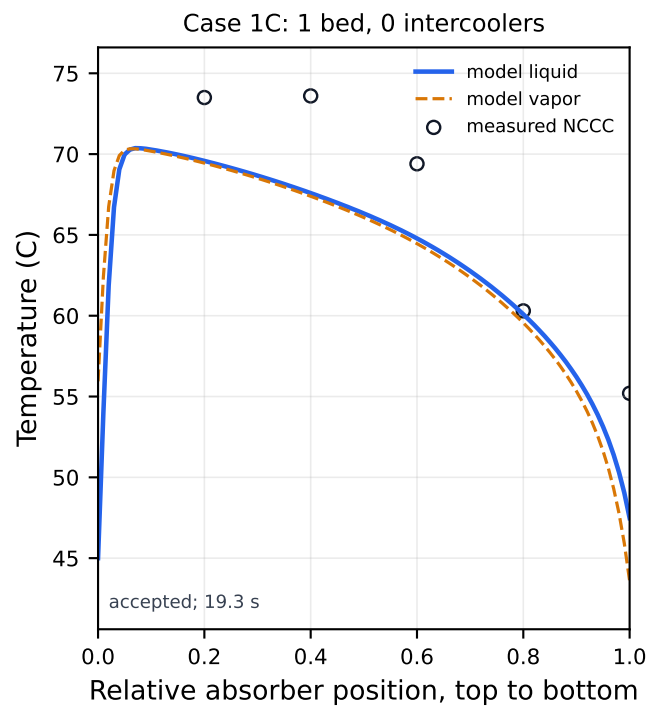

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

True model profiles: 3 beds, 0 intercoolers, B cases

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

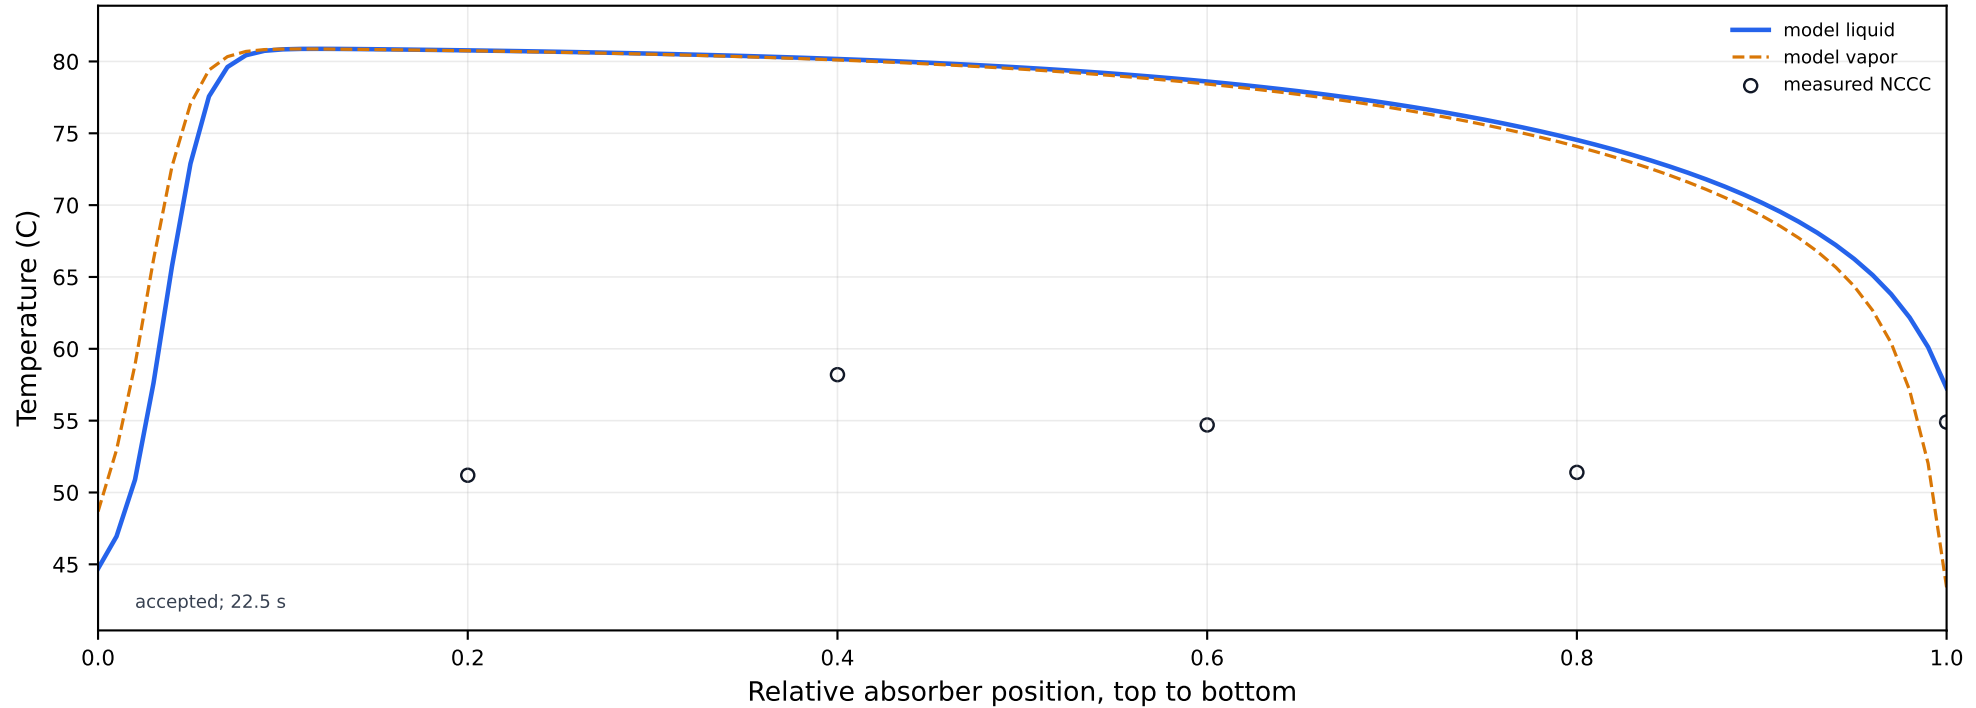

True model profiles: 1 bed, 0 intercoolers, cases 1C-6C

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

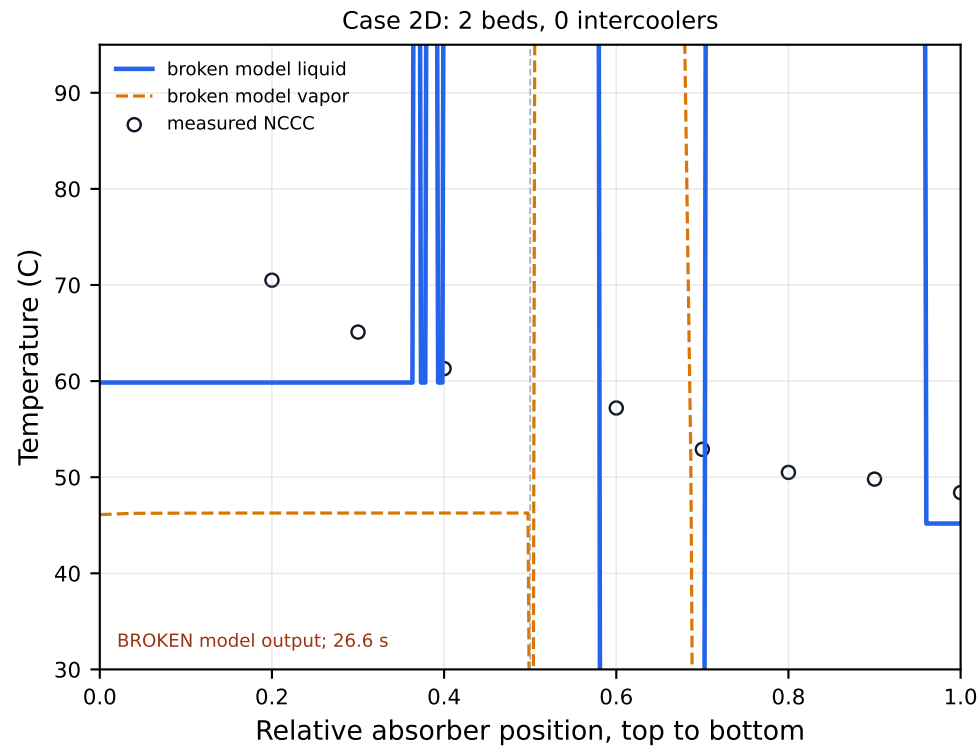

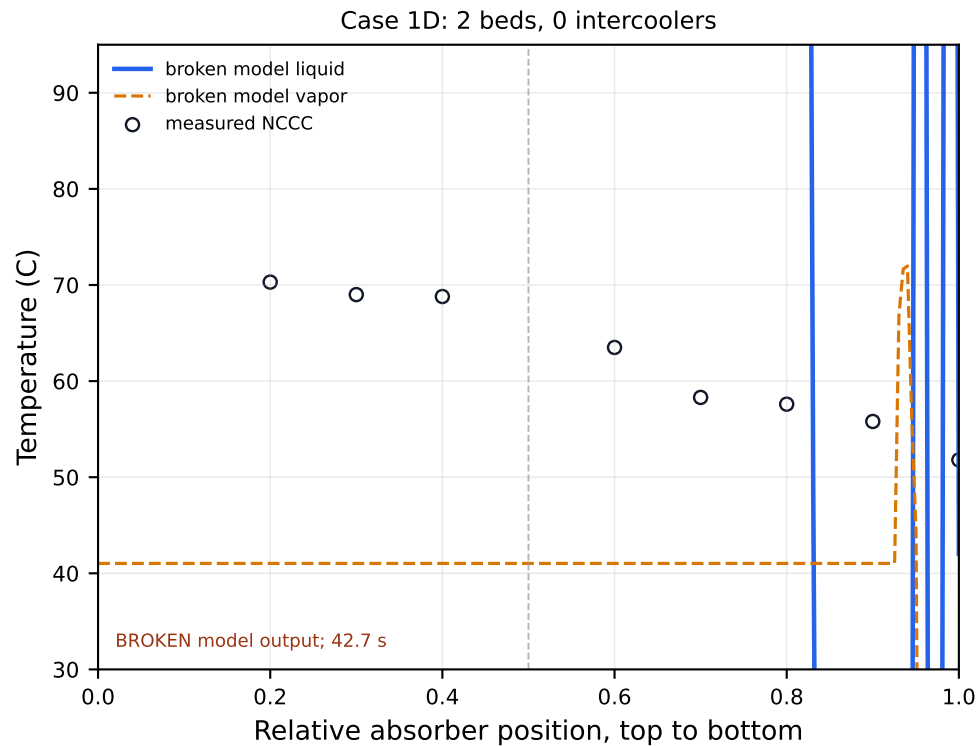

True model profiles: 1 bed, 0 intercoolers, case 7C

Case 7C: 1 bed, 0 intercoolers

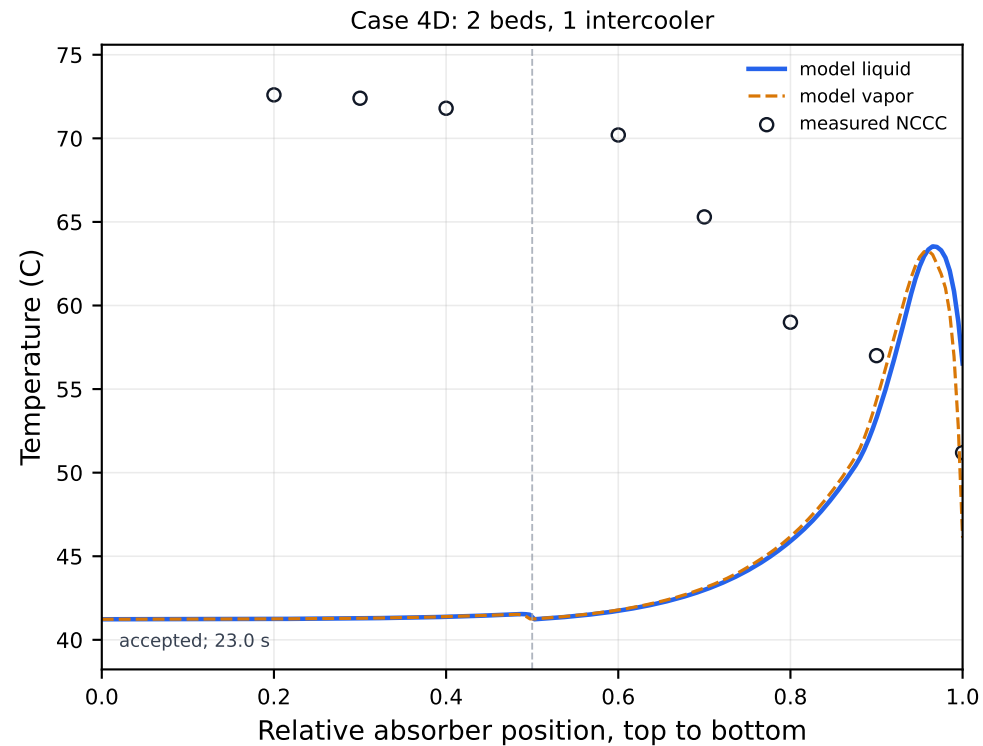

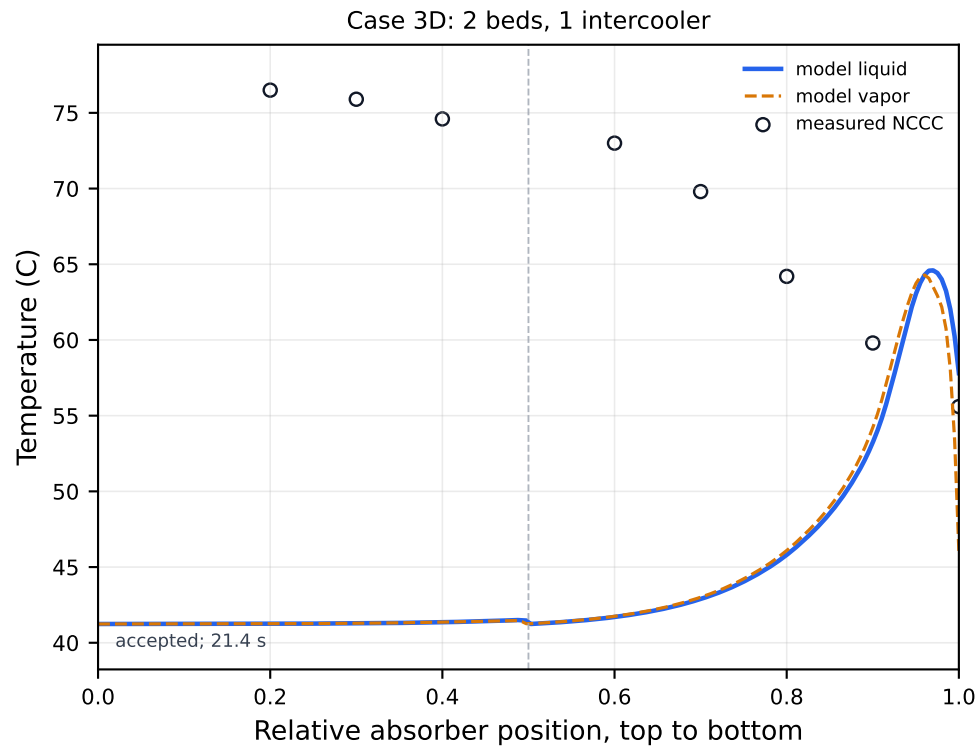

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

True model profiles: 2 beds, 0 intercoolers, D cases

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.

True model profiles: 2 beds, 1 intercooler, D cases

Measured points are unconnected. Model lines are exported true model profiles only; broken or missing model outputs are labeled.
